You have invested in best-in-class IT infrastructure solutions. The sooner your team begins to use it with confidence, the better it delivers the measurable benefits you expect. When you work with Seria's training services you are maximizing the value of your technology investment.
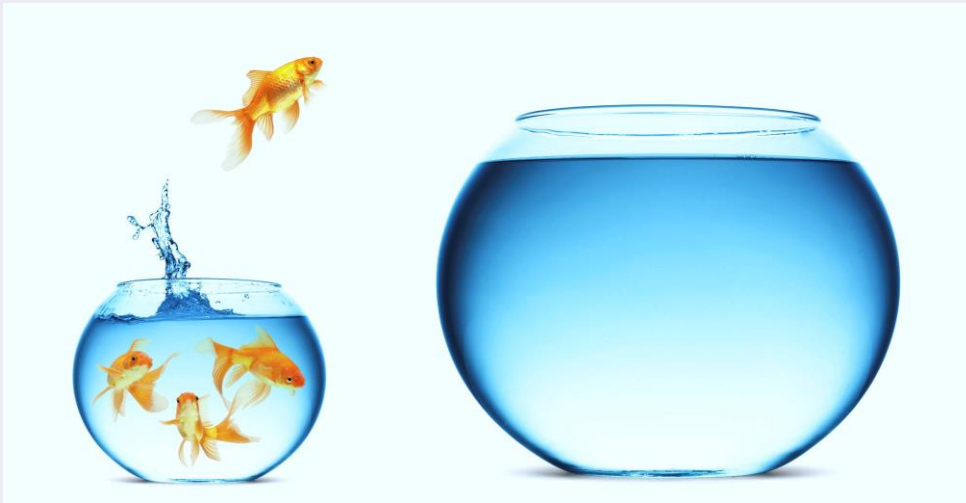

Enable your entire organization from IT professionals to end users with knowledge and skills that boost productivity and cut downtime. With Seria training services, you can develop a thorough and customizable training program to help your employees work faster and smarter.

Key Benefits of Seria's Training Services

- Delivered by professionals with field experience in respective technologies
- Flexible in time and length of delivery
- Portable, can be delivered at your location/country
- Customizable to your needs and area of specialty
- Designed by professionally accredited expert trainers and skilled consultants
- Deliver the "WoW" factor

Comprehensive Requirement-Focused programs

Seria training services provides more than 20 courses in core IT infrastructure solution areas, including Enterprise Storage, Enterprise Servers, Backup, HA clusters, Virtualization, SAN etc.

Instructors Bring Industry Expertise and Hands-on Experience

Seria trainings are delivered by highly-trained instructors—many of whom have advanced degrees in their fields. Not just experts on the technology, our instructors fulfill dual roles, serving as implementation consultants, bringing timely, real-world experience to the training sessions.
